

## Press Release

---

### **A Total of ₺85 Million Prize at TEKNOFEST 2024!**

**Applications for TEKNOFEST 2024 technology competitions have started. The excitement of TEKNOFEST, whose new destination is Adana, continues where it left off with ₺85 million prize.**

**“You Are the Future” with high-performance projects in prestigious competitions.**

Applications have started for the **world’s largest technology competitions** organized within the scope of TEKNOFEST Aerospace and Technology Festival. With the motto **“You are the Future with TEKNOFEST,”** **₺30 million monetary prize will be awarded to technology enthusiasts who are expected to demonstrate high performance in the prestigious competitions.** TEKNOFEST technology competitions, where more competition categories are opened every year than the previous year and are the largest award-winning technology competitions in Türkiye’s history, will be held in **46 main categories and 117 sub-categories** this year. Applications for TEKNOFEST 2024 technology competitions will be open until **February 20, 2024.**

### **Millions Apply to TEKNOFEST! Join This Excitement.**

More than 2 million applications have been made to TEKNOFEST since 2018, which continues without slowing down to support the projects of thousands of young people working in various fields with the aim of arousing the interest of young people in producing and developing national technologies. For TEKNOFEST 2024, thousands of qualified young people from primary school to secondary school, high school, university, undergraduate and postgraduate levels will be able to apply to technology competitions organized in different categories to realize their dreams. Participate in the competitions where the **application deadline is February 20** and take your place at TEKNOFEST 2024!

In TEKNOFEST 2024, 46 different technology competitions drawing the interest of young people, such as Rocket Competition, Model Satellite Competition, Artificial Intelligence in Healthcare Competition, Biotechnology Innovation Competition, Digital Technologies in Industry Competition, Flying Car Simulation Competition, Educational Technologies Competition, Robotaxi-Full Scale Autonomous Vehicle Competition, Agricultural Technologies Competition, Fighter UAV Competition, Chip Design Competition, will be held. Different from 2023 technology competitions, **Wireless Communication Competition, Blockchain Competition, Air Defence Systems Competition, Financial Technologies Competition, Unmanned Surface Vehicle Competition, Smart Wifi Coverage Competition and TEKNOFEST Roboleague Competitions** will be opened for applications for the first time **within the scope of TEKNOFEST 2024.**

**TEKNOFEST Aerospace and Technology Festival** will take place in **Adana in 2024**, organized under the stewardship of Turkish Technology Team Foundation (T3 Foundation) and Ministry of Industry and Technology of the Republic of Türkiye as well as the contributions of Türkiye’s leading technology

companies, public, media organizations and universities. Applications to participate in the competitions at TEKNOFEST, the only festival that carries the festival enthusiasm to all corners of Türkiye and whose feet don't touch the ground, can be submitted through [www.teknofest.org](http://www.teknofest.org).
