

## The Future of Our Country is Shaping with the Educational Technologies Competition

Young minds who will produce solutions that will facilitate and make learning permanent through technology integration in education and training will compete in the **Educational Technologies Competition** held within the scope of **TEKNOFEST**, under the management of the **Turkish Technology Team Foundation**. All **primary school, secondary school, high school, university students and graduates** studying in Türkiye and abroad can participate in the competition, and graduate-level companies or enterprises can also apply as a team or individually.

While keeping efficiency in learning at the highest level from young people and producing computer-aided or mobile-friendly solutions that students can use on online or offline learning platforms is among the important evaluation criteria, it is also important that they develop expected projects on prototype products, educational software, educational games, educational simulations and innovative technologies.

In the Educational Technologies Competition organized within the scope of TEKNOFEST; **The first place winners at the primary and secondary school level will be awarded 50,000 TL, the second place winners will be given 40,000 TL, the third place winner will be awarded 30,000 TL, the first place winner at the high school level will be awarded 50,000 TL, the second place winner will be awarded 40,000 TL, the third place winner will be awarded 30,000 TL, the first place winner at the university level and above will be awarded 60,000 TL, the second place winner will be 50,000 TL, and the third place winner will be awarded 40,000 TL.** Get ready now for the competition, where applications will end on February 20!

### TEKNOFEST Technologies Competitions Success Stories Inspire New Competitors...

Following their first place in the TEKNOFEST Educational Technology Competition, the **Dü-StemKodLab** team added a new one to their achievements and continued with the TBA Academy initiative. Continuing on their way with firm steps with the inspiration they received from TEKNOFEST, the team developed the online curricula of Technology-Based Education such as Artificial Intelligence, Software, Algorithm, Robotics at the K12 Education level and their local and national physical materials. TBA Academy made sales of 8.4 Million TL to many institutions, especially Public Schools, Private Schools, Science Centers, Universities and Municipalities. TBA Academy, which is also one of the 1st Term Graduates of TEKNOFEST Entrepreneurship Program, held various meetings on bilateral cooperation, investment negotiations and technology entrepreneurship in Chengdu Science City, China's advanced technology center, upon the invitation of Tianfu International Technology Transfer Center (ITTC) of the People's Republic of China. At the same time, TBA Academy signed a memorandum of understanding with ITTC and achieved the first agreement to use the Technology Based Education platform in China.

#### Note to Editor:

**TEKNOFEST Technology Competitions 2024**

The world's largest technology competitions, organized within the scope of TEKNOFEST Aviation, Space and Technology Festival, provide 30 million TL in awards and over 55 million TL in material support to technology enthusiasts who will demonstrate high performance in prestigious competitions with the motto "You are the Future with TEKNOFEST". TEKNOFEST technology competitions, which are the largest award-winning technology competitions in Türkiye's history and where more competition categories are opened every year compared to the previous year, are organized in 46 main categories and 117 sub-categories this year. Within the scope of TEKNOFEST 2024, Wireless Communication, Block Chain, Air Defense Systems, Financial Technologies, Unmanned Marine Vehicle, Smart Wi-Fi Coverage and TEKNOFEST Robolig Competitions are open for applications for the first time this year.

Turkish Technology Team Foundation (T3 Foundation) and T.R. TEKNOFEST Aviation, Space and Technology Festival, organized under the main leadership of the Ministry of Industry and Technology and with the support of Türkiye's leading technology companies, public, media organizations and universities, will be held in Adana in 2024. The application deadline for TEKNOFEST 2024 technology competitions is 20 February 2024.
